About Gekko

Making Complex Simple.

No matter how challenging the task, we make the world of technology simple to help businesses run smoother and grow faster.

Our team of accredited engineers work hard to understand your exact needs, then offer bespoke, expert advice that makes the seemingly complex, seem anything but.

We don't deal in jargon, just straightforward solutions to your biggest technical challenges.

- Microsoft Network Partner
- Gamma Accredited Partner
- Cisco Premier Partner.
- Expert Network Accreditations in-house:
 - CCDE
 - CCIE
 - CCNP Voice
 - CCNA Wireless

Established in 2012, Gekko are experts at what we do. We specialise in technologies such as Unified Communications, Data Centre, and Wireless.

We work hard to understand your business, share our knowledge and work in a down-to-earth, no nonsense way that makes life easier for everyone.

Our highly accredited engineers will always talk your language, without any of the usual jargon. In fact, simplifying complex technology is a real passion of ours.

We have a large number of clients who benefit from this, clients such as Cancer Research UK, Pandora Jewellery, Nisa Retail and Everest Windows.
